# safe | hands

Combining an effective disinfectant solution along with the ideal cloth weight makes these hand wipes the perfect solution

In today's food preparation areas, hygiene guidelines are tough and the risk of cross contamination through neglecting these requirements puts many people at risk. With the hand wipes, cross contamination is eliminated with a single stroke, killing off all potentially lethal bacteria from passing from your hands to the product. Designed to be quick and easy they reduce the need for continued washing of the hands

> > Made in the UK - It Matters!
