

THERMAPEN® ONE THERMOMETER

- ONE second response time
- 5 year guarantee
- Waterproof to IP67
- Auto-intelligent backlight in cool white

The Thermapen ONE is the ultimate kitchen thermometer. Quick, accurate and easy-to-use, measuring temperature over the range of -49.9 to 299.9 °C.

Instant temperature for perfectly cooked food

The Thermapen One is accurate to ± 0.3 °C (-19.9 to 119.9 °C) ± 0.4 °C (-49.9 to 199.9 °C) otherwise ± 1.0 °C and will display the temperature of food or liquid in just ONE second.

Designed for kitchen professionals

Using industry leading thermocouple technology, the Thermapen One has a patented self-rotating display that can be used in any position, in either hand. The unit incorporates an intelligent backlight display - improved LCD in cool white, sensing light levels, automatically turning the backlight on/off in varying light conditions. The motion-sensing sleep mode automatically turns the Thermapen on/off when set down or picked up, maximising battery life. Powered by a single AAA battery with a life expectancy of 2000 hours in normal use, without the backlight. Both low battery (icon) and open circuit indication are displayed, when applicable. The casing is washable and includes Biomaster Antimicrobial Technology that reduces bacterial growth.

The Thermapen One is waterproof to IP67 and incorporates a reduced tip, stainless steel, penetration probe that conveniently folds back through 180° into the side of the instrument when not in use.

Each Thermapen One is supplied with a FREE traceable certificate of calibration and 5 year guarantee.
